GOVERNMENT OF THE PEOPLE'S REPUBLIC OF BANGLADESH

**REPORT OF THE
MARTIAL LAW COMMITTEE
ON
ORGANISATIONAL SET-UP
PHASE III**

VOLUME VII

MINISTRY OF
IRRIGATION, WATER DEVELOPMENT & FLOOD CONTROL

PART 3

CHAPTER 1

BANGLADESH WATER DEVELOPMENT BOARD

February, 1984

GOVERNMENT OF THE PEOPLE'S REPUBLIC OF BANGLADESH
CHIEF MARTIAL LAW ADMINISTRATOR'S SECRETARIAT
Martial Law and Civil Wing

NOTIFICATION

No. 7002/1/Civ-I Dated Dhaka, the 7th March 1984

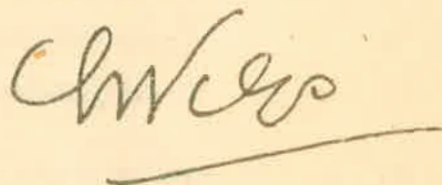

SUBJECT : Organisational set up—Public Statutory Corporations
(Autonomous/Semi-autonomous Bodies) and allied
Organisations.

REFERENCE : Chief Martial Law Administrator's Secretariat letter
No. 7002/2/Civ-1, dated 8 May, 1983.

The report of the Martial Law Committee on organisational
set up of the Bangladesh Water Development Board
Spin-off of Irrigation Water Devt & Flood Control
was submitted to the Hon'ble President and Chief Martial Law
Administrator after consideration by the Review Committee in
consultation with the representative of the organisation concerned.

The Hon'ble President and Chief Martial Law Administrator is
pleased to approve the revised organisational set up as printed
in this booklet.

By order of the President and
Chief Martial Law Administrator

M. ATIQRUR RAHMAN
MAJOR GENERAL
Principal Staff Officer.

BANGLADESH WATER DEVELOPMENT BOARD

INTRODUCTION

1. With a view to overall integrated development of Water Resources of the country and proper implementation of Flood Control, Irrigation & Drainage Projects, a detailed survey was conducted in 1956 by the U.N.O through its Technical Mission, known as KRUG Mission. On the basis of specific recommendations of the Mission, a Statutory Body named, "East Pakistan Water & Power Development Authority" was created under the Ordinance No. 1 of 1959. Since then and up to the liberation of the country, various steps were taken by that Authority to prepare and implement different schemes for the development of Water and Power resources of the country.

2. The Authority was bifurcated into two separate bodies with promulgation of P.O. No. 59 of 1972, leading to creation of "Water Development Board" and "Power Development Board". This was done with a view to undertaking expanded Water Resource Development Programmes and speed-up the pace of execution of projects.

FUNCTIONS

3. The Bangladesh Water Development Board has been entrusted with the responsibility for the overall development and utilisation of water resources in Bangladesh.

The Board prepares schemes for the whole of Bangladesh or any part thereof providing for all or any of the following matters namely :

- a. Construction of dams, barrages, reservoirs and other original works for irrigation, embankment and drainage channels for bulk water supply to communities and recreational use of water resources;
- b. flood control including water-shed management;
- c. prevention of salinity, water congestion and reclamation of land ;
- d. regulation of channels to concentrate river flow for more efficient movement of water, silt and sand excluding all such operations as, in the opinion of the Government may be carried out by any other agency; and
- e. the Board may take such measures and exercise such powers as it considers necessary or expedient for carrying out the purpose of P.O. 59 of 1972.

EXISTING ORGANISATION

4. The existing personnel position consists of 24,368 sanctioned post and 18,813 existing strength. The organogram is enclosed at Annexure 'A'.

CHARTER OF DUTIES

5. The Charter of Duties up to Superintending Engineer/Director is given in Annexure 'B'.

WORK-LOAD

6. Bangladesh Water Development Board has completed, since inception, a total of 138 projects including major projects like Karnafuli Multipurpose Project, G.K. Project (Kushtia Unit) Phase-I and Phase-II, Brahmaputra Right Bank Flood Embankment Project; Dhaka-Narayanganj-Demra Irrigation Project; Tubewell and Low Lift Pump Irrigation Project in Northern Districts; Coastal Embankment Project (Phase-I), Barisal Irrigation Project Phase-I, Chandpur Irrigation Project, Comprehensive Drainage Scheme for Sadar Sub-Division, Dist. Noakhali, and Manu River Project.

Some notable and on-going pride-projects are Teesta Barrage Projects, Rangpur; Meghna-Dhonagoda Project, Comilla and Muhuri Irrigation Project, Feni.

7. An evaluation of the overall performance of Water Development Board reveals that WDB has completed, up to June 1983, since commencement, 3456 miles (5530.00 Km) of embankment, 2082 miles (333.00 Km.) of irrigation canals 1658 miles (2353.00 Km.) of drainage channels, 2432 Nos. of hydraulic structures, 1209 Nos. of drainage sluices, 740 Nos. of flushing sluices, 3376 Nos. of bridges and culverts and 952 Nos. of closures.

8. Flood protection and drainage facilities have been provided to 61.06 lakh acres (24.42 lakh hectares) and irrigation facilities have been provided to 6.57 lakh acres (2.63 lakh hectares) of land. Area reclaimed from the sea is 350 sq. miles (Up to June-1983).

9. During 1982-83 Water Development Board has set the target of completing 24 schemes out of 83 (including sub-projects under town and river protection scheme). The number of projects actually completed during the year is 22.

	UP TO JUNE 1983	SET TARGET FOR 1983-84
I. Embankment		
i. Coastal	2282 miles (3651.20 Km)	127 miles (203.20 Km)
ii. Other	1174 miles (1878.00 Km)	73 miles (116.80 Km)
II. Irrigation Canal	2082 miles (333100 Km)	32 miles (51.20 Km)
III. Drainage	1658 miles (2353.00 Km)	93 miles (148.80 Km)
IV. Hydraulic Structures	2432 Nos.	a. 156 Nos. (full) b. 127 Nos. (part)
V. Drainage Sluices	1209 Nos.	Included in item
VI. Flushing Sluices	740 Nos.	No. iv (a) & (b)
VII. River Closures	952 Nos.	6 Nos.
VIII. Bridges and Culverts	3376 Nos.	a. 14 Nos. (full) b. 12 Nos. (part)
XI. Area benefited by flood protection and drainage facilities.	61 lakh 06 thousand acres (24.42 lakh hectares)	1 lakh 19 thousand (4817.81 hectares)

j. Area benefited by Irrigation facilities.	6 lakh 57 thousand acres 2.63 lakh hectares)	9 lakh 09 thousand acres (3.96 lakh hectares)
k. Area reclaimed from the sea	350 sq. miles (89600 hectares)	—
l. Food for Works Programme		
I. No. of schemes completed	1267 Nos.	373 No.
II. Total quantity of wheat utilised	576391 Tons	104813 Tons
III. Embankments constructed, retired & repaired.	5064 miles (8102.60 Km)	a. 983 miles (full) (1572.80 Km) b. 29 miles (part) (46.40 Km)
IV. Excavation & Re-excavation of channels.	7747 miles (12395.00 Km)	a. 1776 miles (full) b. 60 miles (part) (96.00 Km)

OTHER DETAILS

10. a. **Officers:** State of existing Class-I Officers is given in Annexure-'C'
b. **Transport :** State of transport is given in Annexure-'D'

OBSERVATION AND RECOMMENDATIONS

11. **Organisation :** The organisation of Bangladesh Water Development Board has been framed keeping an eye on the need as well as resource constraints.

12. On completion of the project its operation and maintenance is being looked after by the WDB. The people of the project areas i.e., beneficiaries have little chance of participation in the O & M process and as such, the goal is not achieved. Therefore, efforts are necessary to involve local participation in the operation and maintenance phases. Possibilities may be explored for formation of Cooperative S.mity, such as, 'Irrigation Water Utilisation Samity' which may be entrusted to take over the O&M responsibility of the Project and ensure better methods of Irrigation Water Supply & Payment of water rates. The Administrative Ministry may appoint a committee in consultation with relevant Ministries/Divisions to study and make recommendations.

13. Man-power of Sub-Divisions have been stated up to the Executive Engineer in the detailed chart of the Organogram. Since the work-loads vary in Sub-Divisions, Executive Engineers will detail personnel in Sub-Divisions as necessary with the approval of respective Superintending Engineers within approved man-power position of the Division. The Board is also authorised for creation/abolition/re-organisation of Division and Sub-Divisions within the authorised man-power as and when necessary. Any difference/duplication/misplacement of employees into classes is adjustable within the approved manpower strength.

14. An Addl. Chief Engineer with at least three years satisfactory service shall be eligible for promotion to the post of Chief Engineer.

15. The Board, in addition to its own accommodation facilities in WAPDA Building, has to hire an area of 1,80,913 sft. for its office accommodation in Dhaka at an annual cost of Tk. 64,29,048.00 (Tk. 5,35,754.00 as monthly

rent). The Board will shift its unit offices from rented accommodation to the River Research Institute Building phase by phase, and if necessary, multi-storied building may be constructed in the present RRI compound when the RRI will go on functioning at Faridpur.

16. **Filling up higher posts of RRI :** River Research Institute (RRI) is a multi-disciplinary research institute and both engineers and scientists are eligible for appointment/promotion in the different research posts as per existing prescribed qualifications, duties and responsibilities for different posts of RRI. The Scientists of RRI belongs to RRI cadre and the engineers posted in RRI belong to the general engineering cadre of the Water Development Board. The RRI though apparently functioning as a ancillary of the WDB, will have all the potentialities to cater to the research needs in the related fields as national institute in the near future as per provision of the scheme approved by the Planning Commission/ECNEC. To attract scientists to develop professional career in the Institute some arrangement with possible promotion-avenues up to highest level of RRI have to be made.

17. In the revised organogram the post of Director-General is redesignated as Chief Engineer. It should be amended as Chief Engineer/D.G. It is also recommended that the post of Addl. Director General shall continue till retirement of the present incumbent. But for giving incentive and encouraging the professional research scholars to develop in their respective discipline, the scientists of River Research Institute cadre should be considered for promotion to the post of Director-General. In case suitable candidate are not found from amongst the scientists of RRI cadre for promotion to the higher posts of DG, then only suitable candidates having adequate research background in the relevant fields from engineering cadre of WDB may be considered for promotion to the highest post of RRI as Chief Engineer/DG.

18. **RRI Liaison Office :** The RRI has been shown in the organogram with its HQ at Dhaka. This will mean a Liaison Office in Dhaka. For proper utilisation and application of the research/technical know-how of the institute, and as per provision of the main scheme to develop it as a national institute the RRI will go on functioning broadly on field oriented basis at Faridpur as early as possible. Only a small liaison office may be maintained in Dhaka and in no circumstances this office will be manned by an officer higher in rank status than the Dy. Director level.

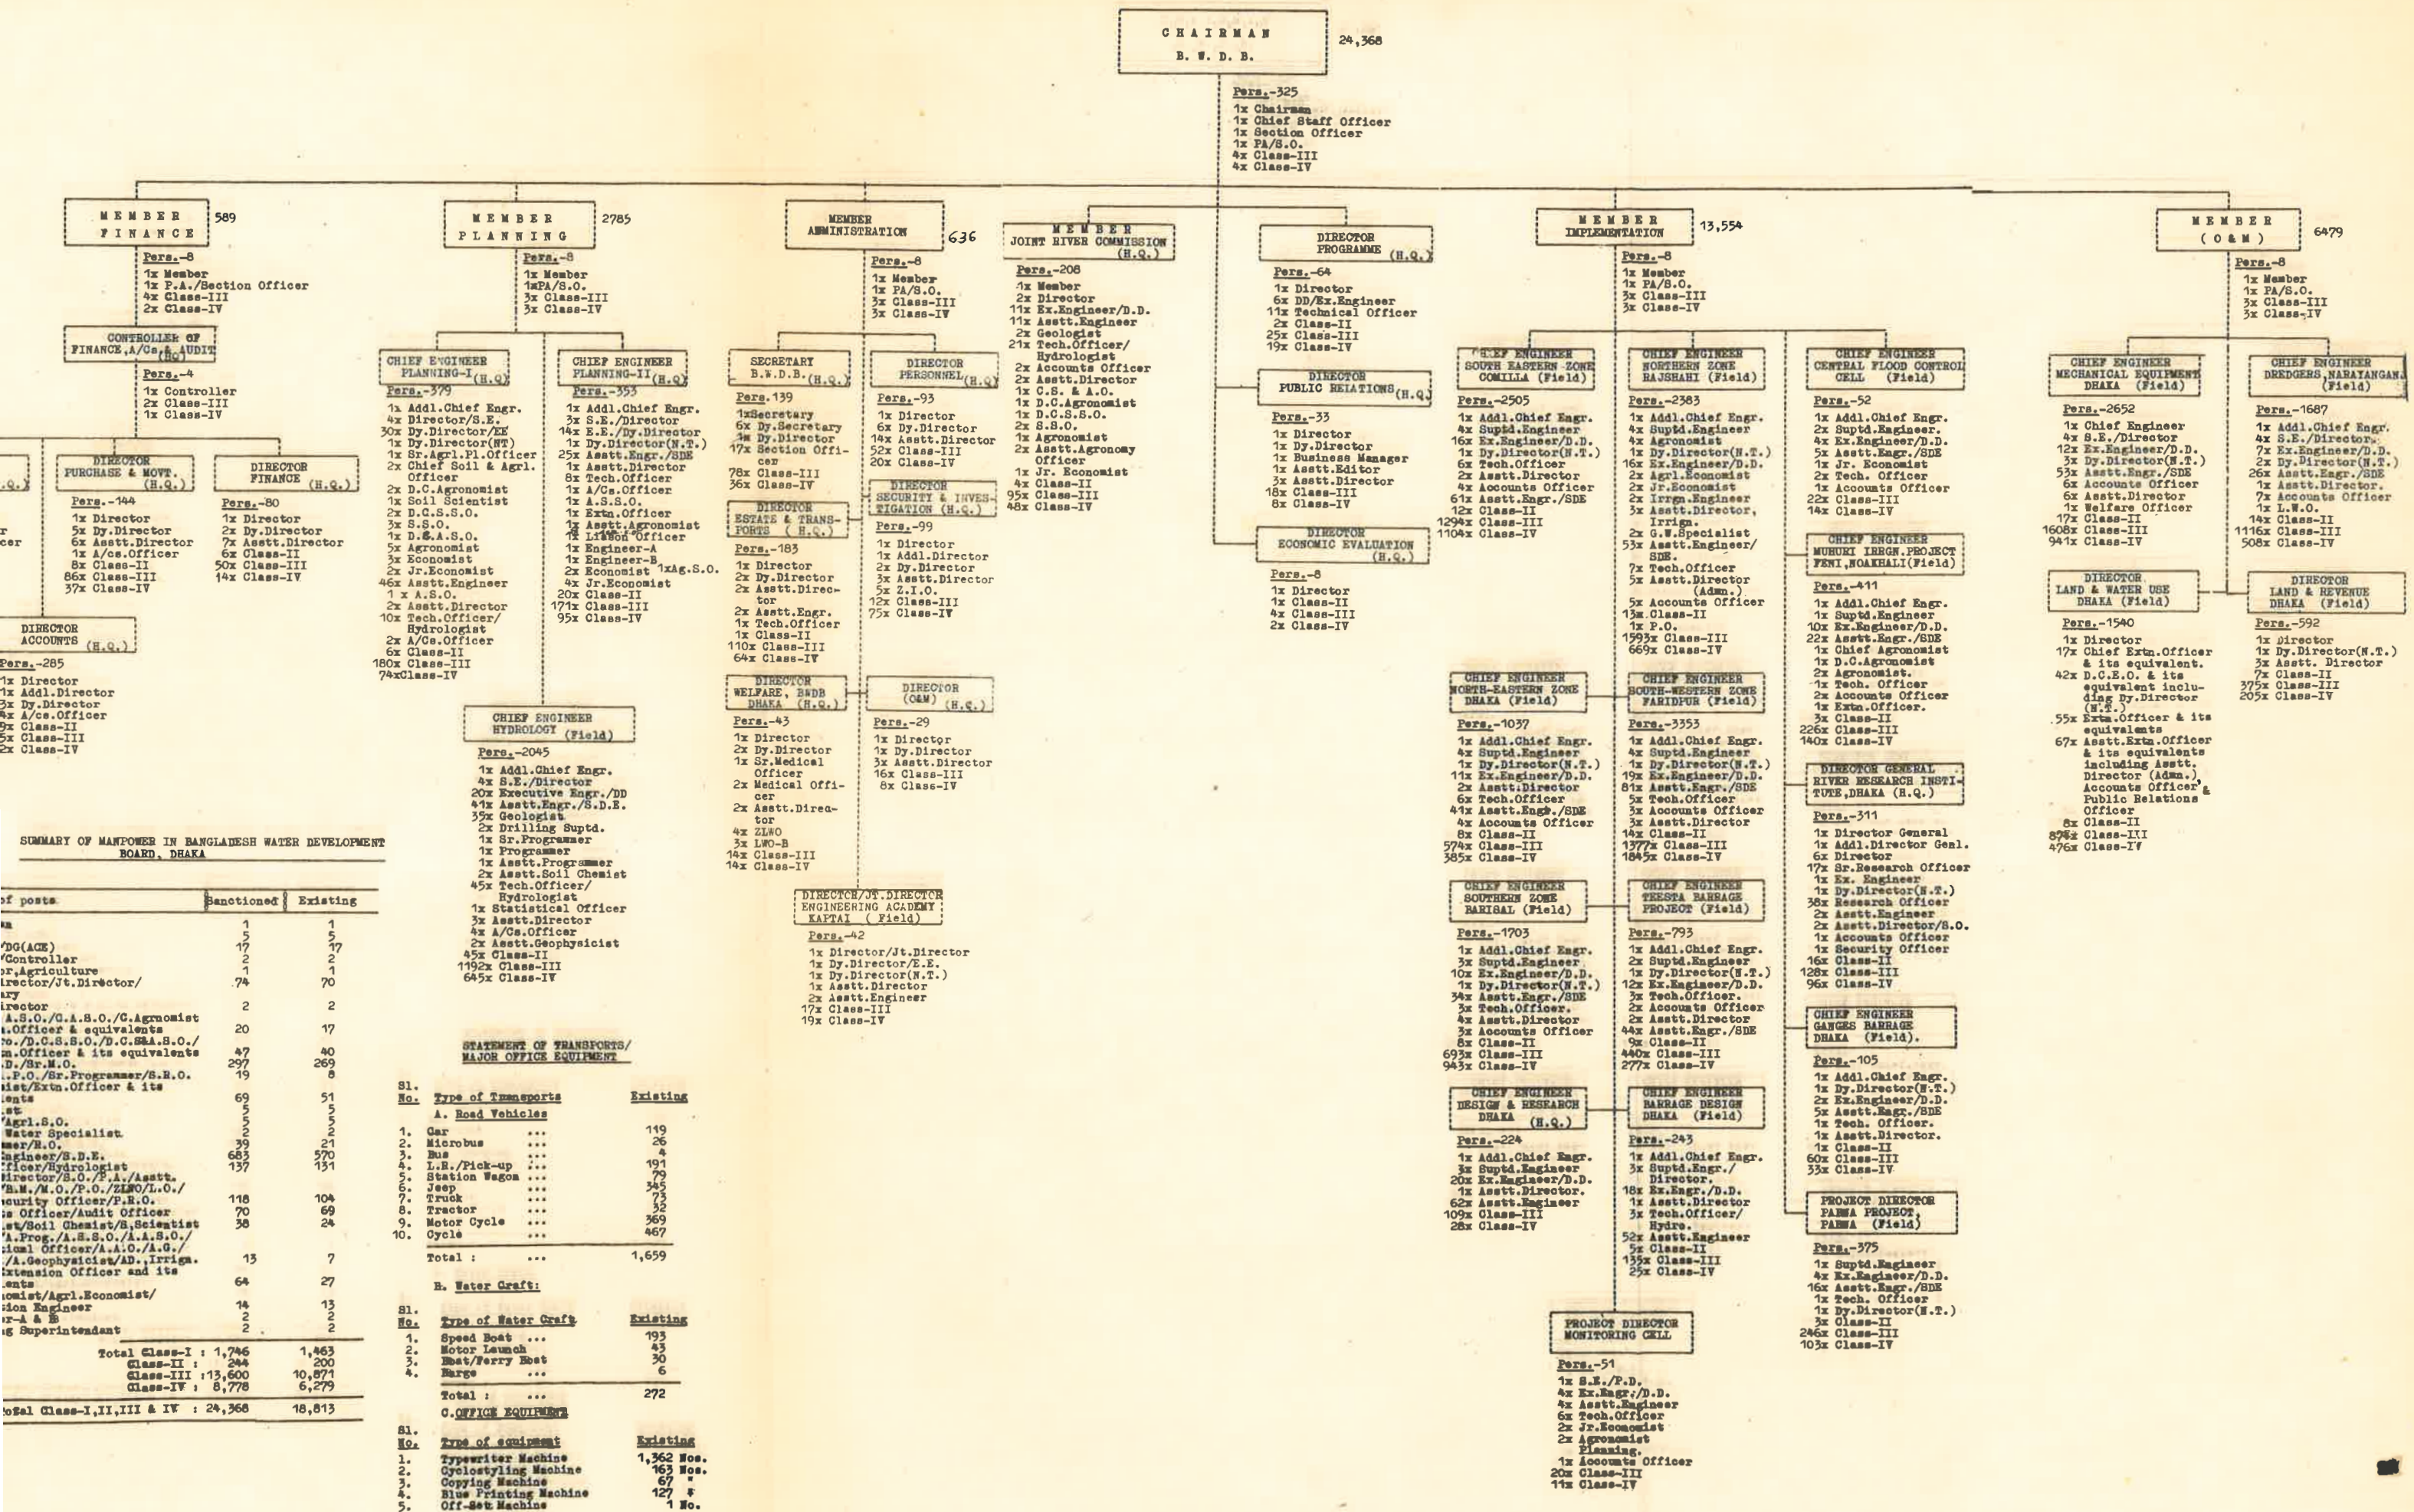

19. **Remedy For Adverse Side Effect :** It has been observed from last about 25 years experience that WDB schemes, though essential for economic development, initiates and accelerates some short term and long term side effects. Some of the adverse side effects in coastal area are quicker siltation of navigable channels which fall between two polders, people living inside polder area cannot use boat, motor launch or any other water craft as means of communication. One optimistic side effect is availability of hundreds of miles of road ways, portions of which may be developed into motor ways. To look into these aspects National Water Council may initiate a project to carryout a survey on extent of problem and take remedial measures with necessary assistance from appropriate Ministry/Agency (viz. IWTA, R&H Deptt., Fishery Deptt. & so on) A highpowered co-ordination committee may be formed to implement approved recommendations and also to take precautions in case, of new projects.

CONCLUSION

20. The revised organogram of Bangladesh Water Development Board will increase efficiency and bring economy in the organisation.

EXISTING ORGANISATION OF
BANGLADESH WATER DEVELOPMENT BOARD
IRRIGATION, WATER DEVELOPMENT & FLOOD CONTROL
MINISTRY OF IRRIGATION, W.D. & FLOOD CONTROL

Annexure-A

CHARTER OF DUTIES

CHAIRMAN

1. To act as administrative head and is responsible for overall administration of the Board.
2. To act as an adviser to the Ministry concerned on technical matters and on formulation of policies concerning the Board.
3. To be responsible for administration and execution of function of the Board as per Acts, Ordinance, Rules and Regulation and directives issued by the Government from time to time,
4. To control and supervise the work of the Board.
5. To serve as the Chief Executive of the Board.

As such responsible for:

- (i) Overall efficient functioning of the Board.
 - (ii) Maintenance of Co-ordination with the Government.
 - (iii) Keeping the public and Government informed of the working of the Board.
6. Generally supervises preparation of long range plans and Annual Development Programmes.
 7. To Give general direction to Members in :
 - a. Preparation of Schemes.
 - b. Execution of Schemes.
 - c. Preparation of Budget.
 - d. Administrative Policies.
 8. Any other function assigned to him by the Authority from time to time.

MEMBER (FINANCE)

1. To develop and recommend overall Financial System including Budgeting, Accounting, Financial Procedures and Controls.
2. To recommend Financial Rules and Regulations and implement measure for Financial Control.
3. To develop and recommend overall 'Chart of Accounts' for use throughout the Board.
4. To co-ordinate overall Financial Management of the Board within Established Policies, Rules, Regulations and Procedures.
5. To obtain loans and grants from the Government for development and protection of works.

6. Directly supervises the functions of :

- (a) Controller of Finance, Accounts and Audit.
- (b) Directorate of Purchase and Movement.

7. Any other function assigned to him by the authority from time to time.

Controller—(Finance, Accounts and Audit)

1. To be responsible for development and recommend about overall financial system including Budget, Accounts and Financial Procedures and Controls of Water Development Board.
2. To formulate and recommend the financial rules and regulations and implement measures for financial controls.
3. To co-ordinate overall financial management of the Board within established policies, rules, regulations and procedures.
4. To directly supervise the functions of :
 - a. Directorate of Finance.
 - b. Directorate of Accounts.
 - c. Directorate of Audit.
5. Any other functions assigned to him by the Authority from time to time.

Director, Accounts

1. To supervise overall administration of the Accounts Directorate.
2. To maintain accounts of BWDB and prepare appropriation accounts, annual account, annual activity report and profit and loss accounts of BWDB and accounts of all loans/aids.
3. To plan and execute transfer and posting of Accounts Officer and below related with Accounts Directorate.
4. To maintain Accounts of all Transactions to the main Bank.
5. To maintain accounts of all Funds, Pension and Leave Salary Contribution and Income Tax etc.
6. To arrange passing and payment of all bills of Headquarters offices and audit of all bills of outside offices.
7. To perform Statement of Inspection Reports by the Statutory Audit Party, Concurrent Audit Party and Special Audit Party.
8. To arrange Compilation of monthly accounts and Fixation of pay and issue pay slips to the officers of the Board.
9. Any other function assigned to him by the Authority from time to time.

Additional Director, Accounts

1. To act as in-charge of administration, pay office and inspection section of the Directorate of Accounts.
2. Responsible for maintenance of accounts, preparation of appropriation accounts, annual accounts, annual activity report and also maintenance of accounts of all loans/aids.
3. Responsible for maintenance of pay section of Directorate of Accounts.
4. Responsible for maintenance of inspection section of Directorate of Accounts.
5. Any other function assigned to him by the Authority from time to time.

Director, Finance

1. Responsible for overall supervision and control of Finance Directorate.
2. Responsible for preparation and maintenance of overall financial system including Budget, Accounts, and Financial Procedure.
3. To work-out and recommend measures of Delegations of Financial Powers.
4. To develop and recommend overall chart of accounts for use throughout the Board.
5. Responsible for obtaining loans and grants from the Government for development and protection works.
6. Authorises opening of Bank account in the name of the Board and transfers and distributes funds to related Projects.
7. To scrutinize, compile and recommend the annual Budget particularly the budget of Headquarters, Overhead Offices and Foreign Exchange budget.
8. Examines proposal for designating 'drawing and disbursing' officers and reviews and advises on proposed rules having financial implications before adoption by the Board.
9. To examine, review and sanction of Imprest, Loans, Provident Fund and House Building advance etc. to employees on behalf of the Board.
10. Any other function assigned to him by the Authority from time to time.

Director, Audit

1. To perform overall administration of the Audit Directorate.
2. To conduct internal audit locally through appropriate Audit Parties.
3. To carry out concurrent Audit of the accounts of the offices under M. E., Dredger, Purchase & Movement Directorates.
4. To ensure observance of codal and financial rules and powers delegated in terms of the Board's delegation of financial powers and drawing the attention of the Board to all matters of serious financial irregularities committed by the local offices.

5. To dispose of objections from Government audit offices in consultation with the concerned office of the Board.
6. To investigate special cases involving financial irregularities as instructed by the Board from time to time.
7. To pass the Audit Reports and give Audit decisions.
8. Any other function assigned to him by the Authority from time to time.

Director, Purchase and Movement

1. To perform overall administration of the Purchase & Movement Directorate.
2. To purchase and procure of all local and foreign materials, plants, machinery and equipment etc.
3. To prepare, recommend and maintain up-to-date categories of lists of the suppliers and indentors for procurement of various items.
4. To prepare and recommend 'Purchase Tender Procedures' and standard 'Purchase-Tender Forms'.
5. To obtain import licences/permits and ensure their validity for foreign purchase under the Board, foreign exchange budgets available from loans, grants or foreign exchange earnings.
6. To maintain progressive records of indents, shipments and supplies in such form as to have a comprehensive view of supplies for the purpose of co-ordination.
7. To collect, compile and present periodic inspection reports on supplies directly collected by the projects/offices to the Board for appraisal and review.
8. To receive and clear imported purchased materials from the Customs and Ports; control and despatch to the consignee i.e., ultimate users.
9. Any other function assigned to him by the Authority from time to time.

MEMBER (ADMN.)

1. Co-ordinates framing of overall administrative policies of the Board.
2. Ensures implementation of administrative policies.
3. To deal with cases relating to appointment, promotion and transfer of officers and staff.
4. To prepare and review recruitment rules of various posts of the Board.
5. To supervise the functions of :
 - (a) Secretariat.
 - (b) Directorate of Personnel.
 - (c) Directorate of Estate & Transport.

- (d) Directorate of O&M.
- (e) Directorate of Welfare.
- (f) Directorate of Security and Investigation.
- (g) Directorate of Engineering Academy, Kaptai.
- (h) Directorate of Training and Career Planning.

6. Any other function assigned to him by the Authority from time to time.

Chairman's Co-ordination Cell

- 1. To assist the Chairman for overall efficient functioning of the Board.
- 2. To maintain co-ordination with the Government Members of the Board and other related Agencies.
- 3. To maintain confidential records of the Chairman.
- 4. To arrange interview of visitors with the Chairman.
- 5. To prepare tour programme of the Chairman.
- 6. To provide staff functions to the Chairman as and when necessary.
- 7. Any other function assigned to him by the Authority from time to time.

Director, Public Relations

- 1. To perform overall administration of the Directorate.
- 2. Responsible for administration, protocol, publication, film production, press relations, field publicity, exhibition and emergency press release relating to Water Development Board.
- 3. To keep the people informed about the activities on progress of the Board and uphold the image of the Board to the public.
- 4. To accompany functionaries of the Board and foreign delegates during their tours to WDB Projects and arrange publicity.
- 5. To publish regular bulletins, Ad-hoc publications, Telephone guides etc.
- 6. To edit and release all advertisement of the Board to the press and ensure their publication and release slogans reflective of the Board's activities for advertisement to the newspapers on important occasions.
- 7. To motivate the mass towards active co-operation in Water Development activities through field officers.
- 8. Any other function assigned to him by the Authority from time to time.

Secretary, WDB

1. To act as the Head of the Secretariat of the Board and responsible for overall administration of the Secretariat.
2. Responsible for overall co-ordination with the Government, Headquarters Directorates of the Board, Field offices and out-side agencies.
3. Responsible for communication of administrative decision and financial sanctions approved by the Board and takes follow-up actions.
4. To make arrangement for preparation agenda and provide records of Board's meeting and other meetings convened by the Chairman/Members.
5. To arrange flow of legal advice to the Board.
6. To execute agreements and contracts in the name of the Board, including those involving foreign agencies.
7. To co-ordinate with Directorates for screening of foreign consultants on qualifications and suitability by competent authority.
8. To process and dispose of cases of allegation and disciplinary action against all classes of officers and employees.
9. To process establishment cases, transfer, posting, promotion, retirement, fixation of seniority etc. of officers to the level of Executive Engineers and above.
10. To perform the task of interpretation of rules and regulations for uniformity.
11. Any other function assigned to him by the Authority from time to time,

Director, Personnel

1. To act as the Head of the Directorate of Personnel and is responsible for its overall administration.
2. To frame Service Rules, Recruitment Rules and interpretation thereof and maintenance of uniform standards for various posts.
3. To perform the work relating to appointment, transfer, promotion, resignation, retirement and other misc. establishment cases in respect of officers and staff having N.N.G. from Tk.225-315/- to Tk.750-1470/-.
4. To prepare and maintain seniority lists of the above categories of employees.
5. To maintain up-to-date position of work-charged personnel and their absorption against the regular posts.
6. To process cases for clearance of the Board for filling up the vacant posts and to arrange clearance from the Government.
7. To conduct the Departmental Examination of Engineers, Agriculturist of the Directorate of Land and Water Use and Asstt. Director/Section Officers.

8. To process the cases of promotion for approval by the Government for the above categories of employees.
9. To compile personnel statistics of BWDB officers and staff both regular and work-charged.
10. To maintain and review A.C.R's of Officers and communicate the adverse remarks to the officer concerned and perform follow-up actions.
11. Any other function assigned to him by the Authority from time to time.

Director, Training and Career Planning

1. To perform overall administration of the Directorate.
2. To process and dispose of all cases relating to local and foreign training
3. To plan and prepare annual training programme of the WDB personnel for training at the Engineering Academy, Kaptai.
4. To assess the training needs of WDB both local and foreign and assists the Board for planning and executing comprehensive training policy and career development programme.
5. To prepare training manuals, training reports and allied informations for submission to Board and the Ministry as required.
6. To maintain liaison and co-ordinate training activities with National and International Training Institutions.
7. To evolve plans for evaluation of training performances.
8. To process all cases of foreign employment, on deputation/lien, and perform follow-up actions.
9. To maintain up-to-date records of training, local and foreign, received by WDB personnel.
10. Any other function assigned to him by the Authority from time to time.

Director Management Services Wing (O&M)

1. To perform overall administration of the O&M Directorate.
2. To plan and undertake organisational studies and O&M Review as required by the Board.
3. To conduct administrative studies and Management Reviews and follow-up as directed by the Board.
4. To examine and process sanctioning of new posts through Staffing Pattern Committee.
5. To compile, prepare and print History of Services of Officers, gradation list of officers and annual reports and periodicals

6. Compilation and finalisation of up-to-date organisational chart of the Board and preparation of Management Guide showing charter of duties of offices and officials.
7. To prepare and up-to-date 'Rules of Business' for the WDB.
8. To advise the Board on reorganisation and structuring of Directorates and field offices for efficiency and economy.
9. To process and perform all work connected with Reorganisation of the Board and maintain liaison with concerned authorities.
10. Any other function assigned to him by the Authority from time to time.

Director, Estate and Transport

1. To act as the Head and responsible for overall administration and smooth functioning of Estate and Transport Directorate.
2. Responsible for overall maintenance and repairs of WAPDA Building, Auditorium, Transport of Central Vehicle Pool, Garden, Yard etc.
3. Maintenance, Store, disposal of Equipment and appliances.
4. Overall security arrangement of WAPDA Building.
5. Installation and shifting of official telephones both in the WAPDA Building and residences of officials and operation of WAPDA PBX Board.
6. Operation and Maintenance of Lifts, both passengers and goods, installed in WAPDA Building.
7. Accommodation of offices within WAPDA Building and hiring of accommodation for different offices in and outside Dhaka.
8. Execution of lease agreement for hiring houses for officials and realisation of rent for occupation WAPDA Show Rooms by different lessees and realise rents of WAPDA Auditorium from different parties.
9. Maintain liaison and superintendence of all Rest Houses of the Board and performs protocol duties as and when assigned.
10. To process and dispose of all cases connected with allotment of Board's Quarters at Jatrabari and Banani, Dhaka.
11. Responsible for preparation and submission of reports to the Ministry in respect of Transport and estates of the Board as desired from time to time.
12. To coordinate and ensure strict compliance of rules for use of transports.
13. Any other function assigned to him by the Authority from time to time.

Director, Welfare

1. To perform overall administration of Welfare Directorate.
2. To plan and process Establishment and Administration of various welfare measures.
3. To deal with the Industrial Relations problems and with those employees of WDB who come under the purview of the Labour Laws.
4. To maintain harmonious Labour Relations in the WDB's establishments which come under Labour Laws e. g. Factories Act, payment of Wages Act, Workmen's Compensation Act etc.
5. To examine the demands of workers' Union and recommend thereon for Board's decision.
6. To render professional advice in Labour matters to the Board and Heads of offices/Directorates when asked for and implement labour policy of the Board as formulated from time to time.
7. To plan and administer medical facilities and allied Welfare matters for employees.
8. To advise and assist officials in the administration and disposal of labour welfare functions.
9. To conduct negotiation and collective bargaining with Labour Unions for settlement of disputes.
10. Any other function assigned to him by the Authority from time to time.

Director, Security and Investigation

1. To perform work for overall control and efficient management of the Directorate and effective performance of duties by its officers and staff.
2. To exercise overall supervision over the security arrangement in WDB installations and stores and bring to the notice of the Board, the defects and lapses as come to notice therein with suggestions for rectification and improvement.
3. To collect of information about the activities of potential saboteurs and other undersirable elements, making plan and preparation to cause damage to installations, stores and other properties belonging to WDB and about corrupt activities of WDB employees as well as about all other matters of interest and importance to WDB and bringing the same to the notice of the WDB.
4. To investigate the complaints received against WDB Employees.
5. To perform follow-up actions on the reports submitted from the concerned offices on security matters.

6. To advise and assist the Board on security matters for maintenance of discipline.
7. To check sabotaging activities and arrange measures of strict vigilance.
8. To maintain liaison with agencies connected with organisation security and discipline.
9. Any other function assigned to him by the authority from time to time.

Additional Director, Security and Investigation

1. To act under the guidance of the Director.
2. To direct and control Zonal Intelligence Officers, guide them and supervise their works.
3. To collect information about corrupt activities of BWDB employees and about the activities of the potential saboteurs and other undesirable elements, making plan and preparation to cause damage to installation, stores and other properties belonging to BWDB as well as all other matters of interest and importance of BWDB and will bring the same to the notice of the Director.
4. To supervise the security arrangements in WDB installations and stores.
5. Any other duties functions assigned to him by the authority from time to time.

Director/Joint-Director, Engineering Academy, Kaptai

1. Responsible for overall control and efficient management of the Academy and effective performance of duties by officers and staff.
2. To work for planning, executing and management of in-service training of the Engineers, Officers and other employees of the Board as and when deputed.
3. To arrange/deliver lectures on technical and administrative subjects in different training courses conducted by the Academy.
4. Responsible for arrangement of accommodation and other facilities for Trainees.
5. To supervise and guide the activities of officers and staff.
6. To arrange evaluation of training courses and ratings of Trainees.
7. To maintain liaison with all training Institutions in preparation of training outlines, syllabus and methodology with the approval of the Board.
8. To prepare training manuals and assist the Board in planning its training policy.
9. Any other function assigned to him by the authority from time to time.

Member (Planning)

1. To supervise, guide and co-ordinate project preparation including feasibility studies, long term planning and perspective planning.
2. Responsible for overall planning of the Water Resources and Flood Control Schemes in the country, supervision of the Land Reclamation Project, Early Implementation of Schemes of the Dutch Govt. Special Studies Project.
3. To plan, control and guide negotiations with Aid-giving Agencies and maintain liaison with national and international agencies in planning and sanction of projects.
4. To supervise the functions of:
 - a. Chief Engineer, Hydrology.
 - b. Chief Engineer, Planning-I.
 - c. Chief Engineer, Planning-II.
5. Any other function assigned to him by the authority from time to time.

Director, Water Investigation

1. To perform administrative and technical control and supervise works on Water Investigation assigned by the Joint Rivers Commission.
2. To assist the Member, Joint Rivers Commission regarding the Technical Studies and Works of the Joint Rivers Commission as the Member-Secretary of J.R.C.
3. To perform functions of the Bangladesh National Committee of ICID, ICOLD & THP etc. as the Member-Secretary.
4. Any other function assigned to him by the authority from time to time.

Director, Economic Evaluation

1. To look after overall administration of the Directorate.
2. To review new schemes and advising the Board about feasibility, economic impact, desirability of implementation of schemes.
3. To assist the Directorate of Programme with comments on the A.D.P. proposals and advise the Board about guidelines on Annual Development Budget and any significant implication due to change or revision of approved projects.
4. To maintain close co-ordination with the relevant offices, specially in the following fields of activity:
 - (i) Consideration of the economic feasibility and appraisal of investigations, studies and projects.
 - (ii) Reviewing economic aspects of reports received from Consultants.
 - (iii) Reviewing and presenting the economic aspects of reports to be incorporated in PC-I Form.
5. To assist the Planning Directorates in the preparation of PP and PC-II and Economic Evaluation of ongoing and completed projects.
6. Any other function assigned to him by the authority from time to time.

Chief Engineer, Hydrology

1. To guide overall administration of the office of the Chief Engineer, Hydrology.
2. To arrange collection, processing, compilation and publication of data in the fields of surface water hydrology, ground water hydrology, river morphology and floods covering the whole of Bangladesh. These data, very essential for formulation of any projects for flood control of water resources development, are used not only by the Water Development Board and its Consultants but also by some other organisations of the Government and aid-giving agencies.
3. To arrange Flood Forecasting on the basis of informations received through wireless, and controls the functions of Flood Forecasting Directorate.
4. Responsible for the Ground Water Directorate and conducts Sub-Soil Investigations through drilling operations and serves as a service organisation not only for the Water Development Board but also for other agencies of the Government furnishing informations on foundation conditions for important structures.
5. Responsible for the Surface Water Hydrology Directorate and imparts training in the techniques of hydrological field measurement operations and this facility is also made available at times to other agencies of the Government.
6. Any other function assigned to him by the authority from time to time.

Director, Surface Water Hydrology-I

1. To look after the overall administration of Surface Water Hydrology-I.
2. To execute the work of Hydrological Survey in Bangladesh, Flood Forecasting and Warning Project, and Morphological Survey of Major Rivers.
3. To prepare project plans, Annual Development Programme and execution of technical, administrative and Budgetary control over each project.
4. To formulate plan for Hydrological Network Installation and Operation and Collection of Hydrological data such as River Water Level, River flow data, Sediment flow data, Sediment data, rainfall evaporation and other climatological data.
5. To formulate plan for Hydrological and Communication Network installation for collection of real time data and issue of flood forecast reports.
6. To execute Major River Gross-section Survey Programme, process the data and issue the same to different user agencies.
7. Any other function assigned to him by the authority from time to time.

Director, Surface Water Hydrology-II

1. To look after the overall administration of Surface Water Hydrology-II.
2. To scrutiny, analysis compile and safe custody of hydrological data.

3. Responsible for the printing and publication of old hydro-meteorological data and their presumption as an important aspect of data processing. This Directorate is also responsible for quality control of the Hydro-meteorological data.
4. Transmission of data weekly, fortnightly or monthly according to measurement schedule. Weekly cards of water level, rainfall and evaporation and all types of discharge observation sheets for tidal and non-tidal stations are printed, for the use of all measurement Division. Sometimes the forms are printed for special works of other Division on requests and on payment.
5. Gauge Register of Water level, rainfall and Evaporation are printed from this Directorate and are supplied to the Measurement Division.
6. Special publications of sediment load, hydrological extreme monthly rainfall and flows etc. are also made from time to time.
7. Any other function assigned to him by the authority from time to time.

Director, Ground Water Investigation Circle

1. To look after the overall administration of the Circle.
2. Responsible for timely execution of all physical works as per ADP comprising of test-borings, test pumpings, Monitoring ground water level and water quality.
3. To carry out Sub-Soil Investigation works through test drillings for all Hydraulic Structures under WDB and other agencies of the Govt.
4. To maintain a Central Stores, a Machine shop for proper maintenance of Rigs, Vehicles and the Equipment needed for execution of physical works concerning survey activities.
5. Any other function assigned to him by the authority from time to time.

Director, Ground Water Data Processing and Research Circle

1. To look after the overall administration of Ground Water Data Processing and Research Circle.
2. To collect Hydrogeological data from the field offices of BWDB, responsible for Ground Water Survey of Bangladesh and collection of similar type of data from other organisations such as BADC, WASA, P.H. Engg., GSG. Petro-Bangla etc.
3. Compilation, processing and publication of these data as BWDB Water Supply papers.
4. Analysis of data, interpretation, recommendation and preparation of Hydro-geological maps and specific study reports and publication of these report as technical BWDB Water Supply Papers.
5. Storing of these data and reports and supply these data to planners and designers for preparation of development schemes particularly Water Development Schemes more specifically tubewell scheme of the country. Also provide technical advices in this field.
6. Any other function assigned to him by the authority from time to time.

Chief Engineer, Planning-I

1. To look after the overall administration of the office of the Chief Engineer.
2. Responsible for overall Planning of Irrigation, Water Resources, Flood Control Schemes in the country and administrative works of Chief Engineer, Planning-I.
3. Responsible for Identification of WDB Projects, initiation of investigation and preparation of Planning Commission Pro forma for survey, investigation and studies.
4. Preparation of terms of reference for project studies and regional studies by foreign and local Consultants, as well as for Departmental Studies.
5. Monitoring Consultants works through studies, co-ordinating with the departmental field officers during the studies and administration of the contract agreements as per their terms.
6. Responsible for preparation of preliminary and feasibility reports of Water Development and Flood Control Projects and revision and updating of Feasibility Reports.
7. Responsible for keeping liaison with Zonal Engineers during construction of the Projects, Preparation and revision of Five Year Plans, Preparation of long Term and updating Master Plan.
8. Any other function assigned to him by the authority from time to time.

Director, Planning, Feasibility Studies

1. Responsible for overall administration of the Directorate of Planning, Feasibility Studies.
2. Identification of W.D. Project, initiation of investigation of W.D. Projects. Preparation of PC-II and PP of different projects.
3. Monitoring consultants work through studies, co-ordinating with the Departmental Field offices during the studies. Monitoring the feasibility study of new schemes under A.D.B. Assistance.
4. Revision and updating of feasibility reports and keeping liaison with foreign Technical Assistance Consultants in conducting the feasibility studies.
5. Scrutining of schemes received from fields for final acceptance for feasibility studies. Contour Survey through Survey Party No. 2 of BWDB Survey of Bangladesh.
6. Printing and reproduction of reports/letters and maintenance of Technical Library.
7. Any other function assigned to him by the authority from time to time.

Director, Planning (Schemes)-I

1. Responsible for overall administration of the Directorate.
2. To furnish, in collaboration with the expatriate Consultants, the feasibility study reports on Drainage and Flood Control Project Technically identified and selected on the basis of National Priorities and in compliance with the criteria of the AID giving agencies e.g. IDA, ADB etc.
3. Review of all relevant data, interim reports, old feasibility study reports, execution to Topographic Survey, Ground Water Studies, Flood Depth measurement, Socio-economic Survey.
4. To propose future cropping pattern on the basis of Civil Engineering and Structural provision in the project area, O&M cost etc. *vis-a-vis* the Agricultural Benefits with and without the Project to show net production.
5. To keep liaison with the foreign consultants, Chief Engineer, Planning-I and AID Giving Agencies such as IDA/ADB etc., preparation of Budget, disbursement fund etc.
6. Any other function assigned to him by the authority from time to time.

Director, Planning (Scheme)-II

1. Responsible for overall administration of the Directorate.
2. Responsible to look after the Small Scale Irrigation Sector Project aided by ADB under Loan No. 558 BAN (SF).
3. Responsible for reporting to the Chief Engineer, Planning-I and for obtaining advice and assistance from a Small Team of Expatriate Consultants.
4. Responsible for formation of a Planning Team to identify, screen and select sub-projects, to prepare feasibility studies and sub-projects, to appraisal reports and to prepare project pro formas to obtain Bank and Government approval for financing.
5. Any other function assigned to him by the authority from time to time.

Director, Planning Schemes-III (IFAD/IDA)

1. Responsible for overall administration of Planning Schemes-III (IFAD&IDA)
2. To provide counterpart support to the Expatriate Consultants for one year for feasibility study of 10 Sub-projects out of total 30-50 sub-projects to be implemented in next five years under IDA financed Small Water Sector Project. After departure of the consultants (Dec. 1983), this Directorate will be fully responsible for carrying out feasibility study and appraisal of the Sub-projects independently. Presently this Directorate is giving counterpart support to M/S. PRC/ECI, the Consultants appointed for study of 10 Sub-projects under IDA Technical Assistance. The Consultants are supposed to complete their assignment very shortly.

3. To act as counterpart support to the Expatriate Consultants appointed by IFAD in the year of 1982 for feasibility study of 2 Sub-projects and identification of 5 Sub-projects to be implemented under IFAD loan. Presently this Directorate is giving counterpart support to the Consultants M/S. EPC of Dhaka and 2 foreign expatriates in feasibility study of 4 Sub-projects & detail engineering of 2 Sub-projects. Remaining 6-9 Sub-projects will be studied independently by this Directorate.
4. To look after the works of Barisal Patuakhali Projects.
5. Any other function assigned to him by the authority from time to time.

Chief Engineer, Planning-II

1. To look after the overall administration of the office of the Chief Engineer, Planning-II.
2. Identification of Water Development Projects and preparation of terms of reference for concerned Project Studies and regional studies by foreign and local consultants as well as for departmental studies.
3. To monitor consultants works through studies, co-ordinating with the field officers during the studies and administration of contract Agreement as per their terms.
4. To finalise feasibility reports preparation of P.C. pro forma for execution of the concerned project. Revision and updating of feasibility reports.
5. To make assessment of foreign requirements for W.D. Projects and negotiations with the aid giving agencies on technical matters.
6. To look after preparation and processing of foreign loan application for Technical Assistance Studies and preparation of long term Plan and updating of Master Plan.
7. Any other function assigned to him by the authority from time to time.

Director, Economic Planning

1. To look after the overall administration of the Directorate of Economic Planning.
2. To review new schemes and advise the Board about feasibility, impact, desirability of implementation and timing of such schemes.
3. To assist the line management Headquarters and Zonal Chief Engineers with advice in respect of new and ongoing schemes.
4. To assist formulation of short-range/long range and medium term dev. areas. Assist the Board in determining priority of new projects. Assisting the Board with command on the Annual Development Programme proposals, and attend review meetings on implementation of schemes.
5. To advise the Board about guide lines on Annual Development Budget. Advising the Board, about many significant implication due to change or revision of administratively approved project.

6. To conduct special studies and investigations where required and preparation of replies to comments made by the Govt. or any other Department/Ministry agency on various aspects of Board's programme/schemes.
7. To maintain of close co-ordination with the relevant staff / line offices, specially in the following fields of activity:
 - (i) Consideration of the feasibility and appraisal of investigations studies and projects.
 - (ii) Assisting the consultants in the preparation of feasibility report as required.
 - (iii) Reviewing different aspects of reports received from the consultants.
8. To assist the other Planning Directorate and Zonal and Field Offices in the preparation of Project Proforma and PC-II, with special emphasis on the agro-economic analysis and evaluation of schemes and to delineate the relevant scope of work relating to economic evaluation, financial appraisal and other areas in case of survey scheme i.e. PC-II.
9. To maintain liaison with the Ministry, Planning Commission and other concerned Govt. Agencies on relevant matters and attend meetings as and when required in connection with processing and approval of schemes and programmes.
10. Any other function assigned to him by the authority from time to time.

Director. Special Studies

1. To look after the overall administration of the Directorate.
2. To act as Head of Salinity and Tidal, Forest, Fisheries, Ecology, Agricultural and Economic Section to carry out the Special Studies.
3. Responsible for Assessment of the total adverse effects in the spheres of Agriculture, Fisheries, Forestry, Navigation, Industries, Domestic and environmental condition and studies and investigation assessed in different sectors.
4. Responsible for review, collection, study and evaluation of the data during the period of study.
5. Responsible for quantifying the adverse effects due to upstream withdrawal of the Ganges Water and also responsible for preparing contingent plan to meet the crisis.
6. Any other function assigned to him by the authority from time to time.

Director, Planning (Perspective)

1. To look after the overall administration of Planning (Perspective).
2. Preparation of PP/PC-II of long-term projects.
3. Identification of priority projects under Second Five Year Plan (SFYP).

4. Up-dating the Hydro-Meteorological, Morphological and other Technical data in connection with the preparation of Long Term W.D. Project.
5. Preparation of a summary report on Water Resources in Bangladesh,
6. To maintain liaison with the National Water Plan Projects, Govt, of Bangladesh.
7. To physically evaluate the project feasibility report made by the consultant whose implementation period is more than 4 years.
8. To assess the problems encountered by the Board for implementing the projects within the schedule time and suggest possible remedies at planning stage.
9. To identify the priority of Long-term Projects (4 years to 8 years) to be taken up in the different districts of Bangladesh to boost up food production and to protect crops from flood inundation.
10. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Land Reclamation and Delta Development Projects

1. To look after the overall administration of the Project.
2. Responsible for control, guide, advice and supervise with the assistance Dutch Expertise.
3. Maintains contract/liaison with various Organisations in connection with the Project.
4. Responsible for collection processing and study of Hydrological Data Testing of Water samples in the Laboratory.
5. Responsible for execution of all structural construction works of Pilot Project in Noakhali coastal areas. Maintain Research in the Pilot Project.
6. Any other function assigned to him by the authority from time to time.

Member, (Implimentation)

1. To supervise, guide, control and co-ordinate the Zonal Chief Engineers in so far as their functions relate to execution of projects included under A.D.P and those under World Food Programme.
2. To supervise and control Zonal Chief Engineers in so far as their functions relate to operation and maintenance of completed projects.
3. Supervision and control of the functions of :
 - a. Chief Engineer, Central Flood Control Cell and Ganges Barrage Project
 - b. Director General, River Research Institute.
 - c. Chief Engineer, Design and Research.
 - d. Chief Engineer, Barrage Design.

- e. Chief Engineer, Teesta Barrage Project.
 - f. Chief Engineer, Northern Zone.
 - g. Chief Engineer, Southern Zone.
 - h. Chief Engineer, South-Western Zone.
 - i. Chief Engineer, South-Eastern Zone.
 - j. Chief Engineer, North Eastern Zone
 - k. Chief Engineer, Muhuri Irrigation Project.
 - l. Project Director, Integrated Rural Development Project.
 - m. Director, Programme.
4. Any other function assigned to him by the authority from time to time.

Director, Programme

- 1. To look after the overall administration of Directorate.
- 2. To perform functions for preparation and maintenance of a consolidated schedule of work programme approved by the Board, review of budget estimates for all Engineering proposal, compilation and formulation of Annual Development Programme.
- 3. To co-ordinate activities of various organisations and Directorates of WDB in respect of development projects and periodical review of progress administrative approval and technical sanction of projects.
- 4. Preparation and approval of pro forma for submission of Project report including feasibility studies (Physical and Financial) of progress of works.
- 5. To develop, recommend, contact and maintain of overall project management system and identify the shortfalls and assist the in going up with the programme.
- 6. To maintain co-ordination between the Chairman and Member of the Board and apprise them of all facts about the progress and implementation of works under execution.
- 7. To maintain co-ordination with the Planning Commission and Ministry regarding status of projects *vis-a-vis* fund allocated.
- 8. Any other function assigned to him by the authority from time to time.

Chief Engineer, Central Flood Control Cell and Ganges Barrage Project

- 1. To look after the overall administration of the office of the Chief Engineer, Central Flood Control Cell and Ganges Barrage Project.
- 2. Responsible as a co-ordinating agency between the Bangladesh Water Development Board and the Ministry of Irrigation, Water Development and Flood Control in matters of all flood control and irrigation schemes and the World Food Programme,

3. To maintain liaison among the Ministries of Irrigation, Water Development & Flood Control, Relief and Rehabilitation and the Resident office of the World Food Programme in Dhaka in matters relating to the implementation of the Food for Works Projects. It also co-ordinates with the field offices of the Bangladesh Water Development Board in this respect.
4. To assist the Member (Implementation) in technical matters of the Food for Works Schemes and also co-ordinate with the Zonal Chief Engineers regarding implementation of the "Food For Works Projects".
5. General supervision and implementation of Project. Guidance and co-ordination in all matters relating to operation and maintenance of the Ganges Barrage Project.
6. Overall control of the Ganges Barrage Project.
7. Any other function assigned to him by the authority from time to time.

D.G./Chief Engineer, River Research Institute

1. To look after the overall administration of the Institution.
2. To conduct studies and investigations in the field of river engineering on River Development Project, Water Supply/Drainage Project.
3. Responsible for Development Projects in Estuaries, Harbour Projects, Coastal Development Projects, Land Reclamation, Effluent and Industrial Wastes.
4. To conduct studies and investigations on Hydraulic Structures e.g., Hydraulic Structures for irrigation/drainage projects in Tidal and non-tidal rivers.
5. To study erosion and sedimentation characteristics of sediments to conduct studies and investigations in the field of hydro-chemistry, geo-chemistry physical oceanography.
6. To conduct tests on the Mechanical, Chemical and Physical characteristics of soils on which structures are constructed.
7. Responsible for carrying out tests and research on concrete and composing materials for determination of quality and suitability of construction materials and for economic proportioning of concrete mixture for different structures to assist construction engineers in the investigation and quality control of each concrete structure.
8. To conduct basic research in related fields.
9. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Central Flood Control Cell

1. To look after the overall administration of the Cell.
2. To maintain overall control and Management of the Organisation.
3. To co-ordinate with the Zonal Chief Engineers regarding Implementation of the 'Food For Works' Project.

4. To construct appropriate structures under CIDA Assistance and IDA Credit.
5. To keep liaison with the Ministry of Relief and Rehabilitation and World Food Programme Organisation regarding the Projects under the World Food Programme.
6. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Planning and Monitoring Cell

1. To look after the overall administration of the office of the Superintendent Engineer, Planning and Monitoring Cell.
2. Selection and appraisal of schemes for execution under IDA Credit No. 955 -BD and CIDA Assistance.
3. Programming of the same for a financial year, both physical and financial.
4. To assist the Field Offices in respect of the effective implementation of the structures.
5. To look after the work of quality control and monitoring of the programme implementation.
6. To maintain liaison for funding of the Schemes with IDA and CIDA.
7. Any other function assigned to him by the authority from time to time.

Chief Engineer, Design and Research

1. To look after the overall administration of the office of the Chief Engineer, Design and Research.
2. To control over the projects in so far as they relate to drawing, design and specifications. Establish design assumptions and criteria.
3. To prepare detailed designs of the projects features to finalise project plans for optimum development at minimum costs. Prepare project costs estimates based on detailed design and compare with the cost estimates as shown in the approved project report.
4. To ensure completion of final design of all projects features and establish general dimensions type structures, equipment, sizes, and precise locations.
5. To assist in solving design problems connected with construction such as access road, temporary bridges etc.
6. To maintain liaison with the field offices in respect of design works.

Director, Design-I

1. To look after the overall administration of the Directorate of Design-I.
2. To control over projects relating to drawing, design and specifications establish design assumption and criteria, prepare detailed design of project features as per requirement of the field offices.

3. To prepare project cost estimates as shown in the approved project report.
4. To ensure completion of final design of all project features and establish general dimensions, type structures, equipment sizes, and precise locations.
5. To prepare on the basis of final design, construction drawing showing precise locations, dimensions, and all pertinent information necessary for constructions.
6. To undertake special studies on project as and when required.
7. To conduct field investigation on present irrigation and drainage system in the country.
8. Any other function assigned to him by the authority from time to time.

The Director, Design Directorate-II

1. To look after the overall administration of Design Directorate-II.
2. To prepare final design of all project features, establish general dimension and type of structure, selection of equipment and their sizes.
3. To prepare of construction drawing of all structures showing location, dimensions and all pertinent informations necessary for construction.
4. To prepare of specification for construction materials and chalk out construction procedures operations. Assisting the field offices in solving design, construction and operation problems of flood control, drainage and irrigation projects, project features—such as regulators, roads, bridges, buildings, bank stabilizations, river training works, etc.
5. To examine the design of project features undertaken by local and foreign consultants when necessary and to suggest modification and changes.
6. To undertake the experimental research study of different structure/project in collaboration with H.R. Laboratory and undertakes special study on projects as and when required.
7. Any other function assigned to him by the authority from time to time.

Director, Design Directorate-III

1. To look after overall administration of Design Directorate-III.
2. Responsible for the Design work of:
 - a. Kurigram Irrigation and Flood Control Project.
 - b. Serajganj Integrated Rural Development Project.
 - c. Small dams all over Bangladesh.
 - d. Water Control Structure all over Bangladesh and monitoring.
 - e. Sluices in the Coastal Embankment Projects, Apart from those any other works as and when assigned by the Chief Engineer, Design and Research.
3. Any other function assigned to him by the authority from time to time.

Chief Engineer, Barrage Design

1. To look after overall administration of the office of the Chief Engineer, Barrage Design.
2. Responsible for all the design works taken for the Barrage Projects under BWDB, also responsible for all technical and administrative control of the offices under him.
3. To ensure completion of final design works of the Barrage Project features and establish general dimensions type structures, equipment sizes, and precise locations.
4. To assist in solving design problems connected with construction such as access road, temporary bridge etc. of Barrage Project.
5. To maintain liaison with the field offices in respect of design works of Barrage Project.
6. Any other function assigned to him by the authority from time to time.

Director, Design, Teesta Head Works

1. To look after overall administration of Design, Teesta Head Works.
2. To prepare detailed Hydraulic and Structural Design of the Teesta Barrage alongwith Canal Head Regulator.
3. To ascertain the requirements of model studies of the Barrage and allied works, including monitoring and incorporating study results in the Design.
4. To ascertain the requirements of foundation investigation and incorporation of the results in the foundation improvement.
5. Preparation of construction drawings for execution. preparation of specification of works. preparation of Tender Documents.
6. To supervise construction works to the extent of compliance of standard and specification.
7. To coordinate the work of allied inter departmental offices and related agencies outside.
8. Any other function assigned to him by the authority from time to time.

Director, Design, Irrigation and Drainage, Teesta Project

1. To look after overall administration of the Directorate.
2. Responsible for Design works taken for the Barrage Design Project.
3. To Assist the Chief Engineer in carrying out duties and functions and checking the Design and Drawing etc.
4. Responsible for Designing the Irrigation and Drainage system of the Teesta Project including all related Structures.
5. Any other function assigned to him by the authority from time to time

Director, Design, Ganges Barrage Project

1. To look after overall administration of Design, Ganges Barrage Project.
2. Responsible for collection, compilation, processing of the existing and recent data, reviewing the reports, papers, preliminary designs done by A.C.E. & TAMS and computation of the final design of the Ganges Barrage Project with an objective to control the water level of the river Ganges in order to permit diversion of the water for irrigation during winter season i.e. for lean period to a gross area of 6.14 million acres and net irrigable area of 4.25 million acres including the area of 0.35 million area of the existing G.K. Project, Kushtia Unit.
3. Any other function assigned to him by the authority from time to time.

Chief Engineer, Teesta Barrage Project

1. To look after overall administration of the office of the Chief Engineer, Teesta Barrage Project.
2. Responsible for timely implementation of Teesta Barrage Project with arrangement for designing, acquiring of lands through Civil Administration.
3. Responsible for exercising strict control over the authorised works programme.
4. Responsible for supervision of works of Teesta Barrage Project.
5. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Teesta Barrage Circle

1. To look after overall administration of the Project.
2. Responsible for preparation of various Irrigation and Flood Control Schemes under the Project and submit the same to the Board for Administrative and Technical sanction.
3. To supervise the works executed under the Project and submit the progress report of the works to the Board.
4. Administrative and financial control over the Divisions. Examination of the measurement books. Register of works and watching the total expenditure up-to-date.
5. To supervise and control the assessment of Revenue from Irrigation, Drainage and Flood Control Schemes within the Project Area.
6. To inspect the Schemes/Works time to time so that the works of the Schemes should be completed within the target date.
7. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Teesta Project Canal Circle

1. To look after overall administration of the Canal Circle.
2. Responsible for the works under the Circle. Examine the measurement books of Divisional Offices.

3. To examine the Register of Works, to control expenditure, technical control, inspection of work in management of works of the Division.
4. To supervise the works executed under the Circle and submit the progress report of the works to the Board.
5. To inspect the Schemes/Works time to time so that the works of the Circle should be completed within the target date.
6. Any other function assigned to him by the authority from time to time.

Chief Engineer, Northern Zone, Rajshahi

1. To look after overall administration of the office of the Chief Engineer, Northern Zone.
2. To execute Projects/Schemes under the Zone.
3. To prepare various Irrigation, Drainage and Flood Control Schemes and submit to the Higher Authority for administrative and technical sanction.
4. To exercise administrative and financial control over the jurisdiction.
5. To supervise and control of the assessment of Revenue from Irrigation, Drainage and Flood Control Schemes.
6. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Rajshahi Irrigation Circle

1. To look after overall administration of the Circle.
2. Responsible for preparation of various Irrigation, Drainage and Flood Control Schemes under the Circle and submit the same to the Higher Authority for Administrative and Technical Sanction.
3. To supervise the works executed under the Circle and submit the progress report of works to the Higher Authority.
5. To exercise administrative and financial control over the Division. Examination of the measurement books, Register of works and watching the total expenditure up-to-date under each sub-head of works in contract with the sanctioned estimate.
5. To supervise and control of the assessment of Revenue from Irrigation, Drainage and Flood Control Schemes within the Circle.
6. To inspect the schemes/works time to time so that the works of the schemes should be completed within the target date.
7. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Thakurgaon Tubewell Project

1. To look after overall administration of the Circle.
2. To exercise financial and technical control and supervise execution of Projects.

3. To supervise implementation of ongoing Project shown below :
 - a. Tubewell Project North Bangladesh.
 - b. Tango Barrage Project.
 - c. Small IDA Projects,
 - d. Small Scale Irrigation Project (ADB) 83-84 in Dinajpur District.
5. Responsible for the following completed projects:
 - i. GWD, LLP Scheme in Dinajpur District.
 - ii. Buri Bundh, Pathraj Bundh, Bulli Bundh, Punarbhaba. Embankment (Small Schemes).
6. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Bogra W.D. Circle

1. To look after overall administration of the Circle.
2. Responsible for both financial and technical control including utilization of yearly budget of the project as per programme.
3. To supervise the works connected with execution, operation and maintenance of the schemes as laid down in the P.W. Accounts Code and Central Public Works Department's Code.
4. To inspect the circle and projects time to time so that the works of the circle should be completed within the target date.
5. Any other function assigned to him by the authority from time to time.

Chief Engineer, South Western Zone, Faridpur

1. To look after overall administration of the office of the Chief Engineer, South-Western Zone.
2. Responsible for administrative control, supervision and co-ordination over the Supdt. Engineer so far their functions relates to execution of works including A.D.P. and those of W.F.P. Schemes.
3. To direct supervision and administrative control over the Superintending Engineers with regard to the operation and maintenance of completed projects.
4. To prepare of Project Proforma (PP) at the initial stage and detailed Engineering projects during execution.
5. To perform all other functions connected with executive, operation and maintenance of schemes as laid down in public works Accounts Code and Central Public Works Department Code.
6. To exercise such administrative and financial responsibility as are delegated time to time by the Board
7. To accept Tender, "B" class enlistment, sanctioning of estimates, checking of tender etc.
8. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Faridpur W.D. Circle

1. To look after overall administration of the Circle.
2. Responsible for both financial and technical control including utilization of yearly budget of the project as per programme.
3. Responsible for supervision and co-ordination over the Executive Engineers so far their functions relate to execution of works including ADP and those of W.F.P. Programme.
4. To exercise the administrative and financial responsibility as are delegated by the Board from time to time.
5. To inspect the Circle and Projects time to time so that the works of the Circle should be completed within the target date.
6. Any other function assigned to him by the authority from time to time.

Superintending Engineer, G-K Project (Kushtia Unit)

1. To look after overall administration of the Circle.
2. Responsible for both financial and technical control including utilization of yearly budget of the project as per programme.
3. Responsible for supervision and co-ordination over the Executive Engineers so far their functions relates to execution of works including ADP and those of W.F.P. Programme.
4. To exercise the Administrative and Financial responsibility as are delegated by the Board from time to time.
5. To inspect the Circle and Projects time to time so that the works of the Circle should be completed within the target date.
6. To perform any other function assigned to him by the authority from time to time.

Superintending Engineer, Khulna W.D. Circle

1. To look after overall administration of the Circle.
2. Responsible for both financial and technical control including utilization of yearly budget of the Circle as per programme.
3. Responsible for supervision and co-ordination over the Executive Engineers as far their functions relates to execution of works including ADP and those of W.F.P. Programme.
4. To exercise the Administrative and Financial responsibility as are delegated by the Board from time to time.
5. To inspect the Circle and Projects time to time so that the works of the Circle should be completed within the target date.
6. Any other function assigned to him by the authority from time to time.

Chief Engineer, Southern Zone, Barisal

1. To look after overall administration of the office of the Chief Engineer, Southern Zone.
2. To exercise controls supervision and co-ordination over Superintending Engineers in so far as their functions relate to execution of projects included under Annual Development Programme and those under World Food Programme.
3. To direct supervision and control over Superintending Engineers in so far as their functions relate to operation and maintenance of completed projects.
4. To prepare of detailed engineering of projects during execution.
5. To perform all other functions connected with execution, operation and maintenance of schemes as laid down in the P.W. Accounts Code and Central Public Works Departments Code.
6. To exercise such administrative and financial responsibility as are delegated by Board from time to time.
7. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Barisal W.D. Circle

1. To look after overall administration of the Circle.
2. Responsible for administration, professional and financial control of Development works.
3. To inspect the sub-ordinate offices. Assessment and control of revenue within the Project.
4. To supervise the function connected with execution, operation and maintenance of schemes as laid down in the P.W. Accounts Code and Central Public Works Departments Code.
5. To inspect the Circle time to time so that the works of the Circle should be completed within the target date.
6. Any other function assigned to him by the authority from time to time.

Project Director, Barisal Irrigation Project

1. To exercise overall administration of the project.
2. Responsible for the works of his Project, examine the note books of Divisional Offices and Registers of works.
3. Responsible for the progress of works, control of expenditure, technical control and inspection of works.
4. To supervise execution, operation and maintenance of projects as laid down by the Board.

5. To exercise overall control and supervision of all works of the project concerned.
6. To exercise such administrative and financial responsibility as are delegated by the Board from time to time.
7. Any other function assigned to him by the authority from time to time.

Project Director, Bhola Irrigation Project

1. To look after overall administration of the Project.
2. Responsible for the works of his project, examine the note books of Divisional Offices and Registers of works.
3. Responsible for the progress of works, control of expenditure technical control, inspection of works.
4. To supervise execution, operation and maintenance of projects as laid down by the Board.
5. To perform overall control and supervision of all works of the project concerned.
6. To exercise such administrative and financial responsibility as are delegated by the Board from time to time.
7. Any other function assigned to him by the authority from time to time.

Chief Engineer, South-Eastern Zone

1. To exercise overall administrative control, supervision and co-ordination over the Superintending Engineer so far their functions related to execution of works including A.D.P. and those of W.F.P. Schemes.
2. To direct supervision and administrative control over the Superintending Engineers with regard to the operation and maintenance of completed projects.
3. To prepare of Project Proforma (PP) at the initial stage and detailed Engineering Projects during execution.
4. To perform all other functions connected with execution, operation and maintenance of schemes as laid down in public works Accounts Code and Central Public Works Department Code.
5. To exercise such administrative and financial responsibility as are delegated time to time by the Board.
6. To accept Tender, "B" class enlistment, sanctioning of estimates, checking of tender etc.
7. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Comilla W.D. Circle

1. To exercises overall administration of the Circle.
2. To supervise the works of his Circle, examine the note books of Diviaional offices and Registers of works.

3. Responsible for the progress of works, control of expenditure, technical control, inspection of works.
4. To ensure timely submission of completion report ; ensure complete up keep of the measurement books.
5. To exercise overall control and supervision of all works of the project concerned
6. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Chittagong W.D. Circle

1. To look after overall administration of the Circle.
2. Responsible for efficient general professional control of public works.
3. To supervise the works of his Circle, examines the note books of Divisional offices and Registers of works.
4. To ensure progress of works, Control of expenditure, technical control, inspection of works.
5. Timely submission of completion report; ensure complete up keep of the measurement books.
6. To exercise overall control and supervision of all works of the project concerned.
7. Any other function assigned to him by the authority from time to time.

The Project Director, Karnafuli Irrigation Project

1. To look after overall administration of Karnafuli Irrigation Project.
2. To Examine books of Divisional Offices and to see that matters relating to the primary Accounts are attended to personally by the Divisional and Sub Divisional officers and that the A/cs. fairly represent the progress of each work. It is also his duty to examine the Register of work and other matter relating to function of the Divisional and Sub-Divisional Offices.
- 3- To inspect the various works in progress within his Circle and to satisfy himself that system of management prevailing is efficient and economical that the different stores are duly verified according to the rules laid down and that there is no accumulation of stock in any Division beyond its requirements. He is also responsible that no delay is allowed to occur in the submission of completion reports. He should, further so far as may be possible inspect periodically all important public buildings and other works within his jurisdiction.
4. To inspect the Divisional Offices at least once a year and record the results of such inspection in the prescribed form. He is also required to satisfy himself from time to time that the staff employed in each Division is actually necessary and adequate for its management.
5. To see that measurement books are carefully kept and measurements properly recorded.
6. Supervision and control of the assessment of revenue from Irrigation works within his Circle rests with the Superintending Engineer.
7. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Chandpur W.D. Circle

1. To look after overall administration of Chandpur W.D. Circle.
2. To supervise the works of his Circle, examines the note books of Divisional offices and Registers of works.
3. Responsible for the progress of works, control of expenditure, technical control, inspection of works.
4. To ensure timely submission of completion report; ensure complete up keep of the measurement books.
5. To exercise overall control and supervision of all works of the Project concerned.
6. Any other function assigned to him by the authority from time to time.

Project Director/Chief Engineer, Muhuri Irrigation Project

1. To look after the administration, management execution of the project works and keep accounts thereof.
2. To prepare P.P., Design and Construction of all Civil and Mechanical works.
3. To supervise and direct on all the jobs so far the project is concerned
4. Approval of the estimates, control, co-ordination and evaluation of the Schemes, design, proposal etc. on different items of works of the project as submitted by Foreign Consultants, Local Agencies, Superintending Engineer and Executive Engineers of the project and approval thereof.
5. To ensure submission of reports and returns to different agencies on the project.
6. To ensure maintenance of Administration and Financial Control and keeping accounts thereof.
7. Any other function assigned to him by the authority from time to time.

Director, M. I. P. Design Cell-II

1. To look after overall administration of M.I. P. Design Cell-II.
2. To prepare final design, establish general dimension and type of structures of Muhuri Irrigation Project.
3. To prepare specifications for construction materials and chalk out construction procedure/operations.
4. To assist the Field Offices in solving design, construction and operation problems of the Project and Project features such as Regulators, Roads, Bridges, Buildings etc.
5. To examine the design of project features undertaken by local and foreign consultants when necessary and to suggest modification and changes.
6. Any other function assigned to him by the authority from time to time.

Chief Engineer, North-Eastern Zone, Dhaka.

1. To look after overall administration of the office of the Chief Engineer, N. E. Zone.
2. To exercise control, supervision and co-ordination over Supdt. Engineers in so far as their functions relate to execution of projects included under A.D.P. and those under W.F.P.
3. To supervise and control over Supdt. Engineers in so far their functions relate to operation and maintenance of completed Projects.
4. Preparation of project Evaluation Proforma of the initial stage.
5. Preparation of detailed Engineering of Projects during execution.
6. To perform all other functions connected with execution, operation and maintenance of schemes as laid down in P.W. Accounts Code and C. P. W. D. Code.
7. To exercise such administrative and financial responsibility as are delegated by the Bord from time to time.
8. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Dhaka Water Development Circle

1. To look after overall administration of the Circle.
2. Responsible for implementation of all development Projects/Schemes.
3. Responsible for Operation and maintenance of all completed Project/Schemes of the Water Development Board within the Civil District of Dhaka.
4. Responsible for Planning, Execution, Supervision of W.D.B's, A. D. P. Projects and operation and maintenance of completed Project of WDB.
5. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Mymensingh W.D. Circle

1. To look after overall administration of the Circle.
2. To exercise professional, financial and administrative control over the Division Offices who are directly responsible for execution of development works.
3. To prepare and implement of Flood Control, Drainage, Irrigation and Town Protection Schemes.
4. To maintain liaison with the Board and the Field Offices.
5. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Sylhet W.D. Circle

1. To look after overall administration of the circle.
2. Responsible for both financial and technical control including utilization of yearly budget of the project as per programme.

3. Responsible for supervision and co-ordination over the Executive Engineers so far their functions relate to execution of works including ADP and those of W.F.P. Programme.
4. To exercise the administrative and financial responsibility as are delegated by the Board from time to time.
5. To inspect the Circle and Projects time to time so that the works of the Circle should be completed within the target date.
6. Any other function assigned to him by the authority from time to time.

Superintending Engineer, Manu River Circle

1. To look after overall administration of the Manu River Circle.
2. To supervise the works of his Circle, examine the note books of Divisional Offices and Registers of works.
4. To supervise execution, operation and maintenance of schemes as laid down in P.W. Accounts Code and C.P.W.D. Code.
5. To exercise overall control and supervision of all works of the project concerned.
6. To exercise such administrative and financial responsibility as are delegated by the Board from time to time.
7. Any other function assigned to him by the authority from time to time.

Project Director, Irrigation and Rural Development Project

1. To look after overall administration of the office of the Project Director.
2. Responsible for Irrigation, Rural Development Project and Flood Control facilities, Drainage facilities, Intensive drainage facilities.
3. Responsible for strengthened Agricultural Extension services throughout the Project Area.
4. To provide Flood Control facilities to 4,55,800 Acres and Drainage facilities 3,43,000 Acres and Irrigation and Intensive Drainage facilities to an area of 54,000 Acres.
5. Any other function assigned to him by the authority from time to time.

MEMBER, O & M.

1. To exercise control, general supervision, guidance, and co-ordination of all matters related to Dredger and M.E. in so far as they are required in the implementation of the Schemes, operation and maintenance of completed projects.
2. To look after the works of Planning and Programming, preparation of P.P. including all development works of Dredger Base.
3. Responsible for efficient and economical functioning of Dredger Organisation and Mechanical Equipment.

4. Directly supervise the functions of :
 - a. Chief Engineer, Dredger.
 - b. Chief Engineer, Mechanical Equipment.
 - c. Directorate of Land & Water Use.
 - d. Directorate of Land & Revenue.
5. To ensure operation and proper maintenance of completed Projects of W.D.B.
6. Any other function assigned to him by the authority from time to time.

Chief Engineer, Mechanical Equipment

1. To look after overall administration of the office of the Chief Engineer, M.E.
2. Operation of construction equipment in different development projects with their needed repair and maintenance.
3. To provide technical manpower for operation, maintenance and report of equipment.
4. To supervise of specification for new equipment, evaluation of (international & local) tender bids for procurement of equipment.
5. To look after the operation and maintenance of large Irrigation Pump Stations.
6. To maintain spares in major warehouses.
7. To supervise Fabrication works for irrigation gates etc. in different workshops and carryout their installation etc.
8. To arrange manufacture of Electric poles and Technologies Erection of Power House.
9. Any other function assigned to him by the authority from time to time.

Director, Mechanical Equipment-I

1. To look after overall administration of the Directorate of Mechanical Equipment-I.
2. Supervise work of Mechanical Divisions located in the Districts of Khulna, Jessore, Barisal, Patuakhali, Kushtia, Pabna, Bogra, Rangpur, Dinajpur, Rajshahi and Faridpur.
3. To supervise the workshop located at Bheramara, Khulna, Jessore, Barisal, Bogra and Dhaka.
4. Any other function assigned to him by the authority from time to time.

Director, Mechanical Equipment-II

1. To look after overall administration of the Directorate of Mechanical Equipment-II.
2. To supervise works of Mechanical Division located in the District of Dhaka, Comilla, Noakhali, Chittagong, Chittagong Hill Tracts, Sythet, Mymensingh, Tangail and Jamalpur.
3. To supervise the workshop located at Tongi, Madnaghat and Kaptai.
4. Any other function assigned to him by the authority from time to time.

Director Planning And Design M.E.

1. To look after overall administration of the Directorate of Planning and Design, M.E.
2. To perform the work of Scrutiny and finalisation of specifications (Technical authentication) for Equipment and spares to be procured from abroad.
3. To conduct Technical scrutiny and Evaluation of National and International bids for procurement of Equipment and spare parts.
4. To prepare Inventory of all Equipment and available spares to be updated periodically and preparation of Equipmentwise/Equipment letwise spare parts list for the above.
5. To give clearance for new procurement of Equipment or spares for projects of BWDB. On the basis of the real need and availability of Equipment and spares.
6. To supervise planning and Design of the "Scrap and Build" Programme for Mechanical Equipment Directorate to be executed by the Field Divisions of Mechanical Equipment.
7. To supervise design works of components and accessories etc. if any, to be manufactured by the Field Divisions.
8. Any other function assigned to him by the authority from time to time.

Project Director 110 M.W.

1. To look after overall administration of the office of the Project Director.
2. Responsible for Technological Erection of Pump Station and Power Station under this Directorate.
3. Responsible for Technological Erection works for 110 M.W. taken up and similar work for 210 M.W. Power Station, expected to be taken up.
4. To undertake mechanical erection works of structures of other agencies on competitive basis.
5. Any other function assigned to him by the authority from time to time.

Chief Engineer, Dredger

1. To plan and organise operation, maintenance and repairs of dredgers, attendant plants and ancillary equipment owned by Dredger.
2. To maintain & repair rivercraft owned by other BWDB Organisation.
3. To provide advisory services regarding preparation of specifications, and inspection during construction stages of vessels for BWDB.
4. To ensure implementation of the on-going scheme 'Improvement of Dredger Fleet' and 'Procurement of Dredger', Attendant Plants and Accessories.
5. To look after overall administration of the office of the Chief Engineer, Dredger.
6. Any other function assigned to him by the authority from time to time.

Director, Planning and Programming (Dredger)

1. To look after overall administration of the Directorate.
2. To supervise the work of planning & programming, preparation of P. P. including all developmental work of dredger base.
3. To render advisory services regarding preparation of specifications, and inspection during construction stages of vessels for BWDB.
4. To ensure implementation of the on-going scheme 'Improvement of Dredger Fleet' and 'Procurement of Dredgers, attendant plants & accessories.
5. Any other function assigned to him by the authority from time to time.

Director, Field Operation (Dredger)

1. To look after overall administration of the Directorate.
2. To ensure planning and execution of Dredging project, evaluation of Physical and Financial progress of the Dredging Projects etc.
3. To conduct pre-work survey & feasibility study of any new scheme; preparation of dredging estimates considering all aspects of the problem.
4. To ensure completion of agreement formalities, planning of the job periodical evaluation of physical and financial progress.
5. To plan and execute Dredging Schemes.
6. Any other function assigned to him by the authority from time to time.

Director, Maintenance and Repairs (Dredger)

1. To look after overall administration of the Directorate.
2. To supervise the work of planning and execution of all mechanical/electrical repairs to dredger.
3. To plan, organise and conduct repair of plant and river crafts of Bangladesh Water Dev. Board, Fabrication and production of parts and components of dredgers and river craft.
4. To supervise execution of modification schemes of dredgers and attendant plants.
5. To ensure operation, maintenance and repairs of dredgers, attendant plants and ancillary equipment owned by dredger Directorate.
6. To maintain and repair to rivercraft owned by other BWDB organisations.
7. Any other function assigned to him by the authority from time to time.

Director, Rivercraft and Ancillary Equipment (Dredger)

1. To look after overall administration of the Directorate.
2. To manage rivercraft, procurement and warehousing of spare parts and other stores, all staff functions like Planning, Programming, Progress Reporting, Equipment Statistics, Training etc.

3. To ensure registration and periodical survey of all rivercrafts, arrangement of personnel and provisioning, co-ordination of major repairs at Dredger Base.
4. To prepare of specification and procurement of spare parts.
5. To ensure, operation maintenance and repairs of Dredgers, Attendant plants and ancillary equipment owned by Dredger Directorate.
6. Any other function assigned to him by the authority from time to time

Director, Land and Revenue

1. To look after overall administration of the Directorate.
2. Responsible for requisition and acquisition of land and taking delivery of physical possession of lands for various development projects of WDB.
3. Responsible to get the Board's land recorded in the Settlement records through mutation, demarcation of boundaries of Board's land.
4. To get in close touch with the Assessing Authorities and District Revenue, administration for up-to-date knowledge about the progress on assessment of water rate and also on collection thereof.
5. To co-ordinate with the Chief Engineer, Supdt. Engineer, Director and Executive Engineers and to keep liaison with the Board as well as the Govt. for submission of proposal for gazette notification towards imposition of water rate.
6. Compilation and consolidation of field reports and returns connected with land acquisition, management and leasing of lands and water areas, assessment and collection of water rate and levy of cess, toll, rent etc.
7. To formulate basic policies for required water rate set-up in different irrigation projects of the Board.
8. Any other function assigned to him by the authority from time to time.

Director, Land and Water Use

1. To look after overall administration of the Directorate.
2. Responsible for mobilising water resources of the country for increasing agricultural production.
3. Responsible for providing data and services regarding Land and Water Use so that projects may be properly planned and executed to secure the intended social and economic benefits.
4. Responsible for programme and conduct soil surveys, analysis soil sample and prepare soil and land classification maps as requirement of engineering sector.
5. To establish Irrigation Experimental Farms as central research station depending upon Agro-ecological situation as well as diversity of soils.

6. To collect basic soil and agricultural data of a specific project, tabulate, analyse and interpret them, prepare future agricultural plans and phase these out on an annual schedule with a view to obtaining maximum return out of the available resources of specific project.
7. To conduct farm management survey of BWDB irrigation projects for determining changes in respect of land ownership and tennure patterns, changes in cropping pattern and production, extent of use of various inputs including irrigation and their contribution towards higher production etc.
8. Responsible for Irrigation Extension Training Section, subject covered are : Irrigation, Water Management, Soils, Agronomy, Farm Management, Extension, Co-operatives, Plant Pathology, Entomology etc.
9. Any other function assigned to him by the authority from time to time.

Annexure-C

BANGLADESH WATER DEVELOPMENT BOARD

STATE OF CLASS-I OFFICERS

Sl. No.	Name and designation	Date of birth	Date of appointment as Class-I officer	Date of joining in the present post	Remarks
1	2	3	4	5	6
1.	Mr. Md. Golam Rahman Chowdhury, Chairman.	2-3-28	30-7-51	10-8-83	Transferred Personnel.

BANGLADESH WATER DEVELOPMENT BOARD

IRRIGATION, WATER DEVELOPMENT AND FLOOD CONTROL DIV

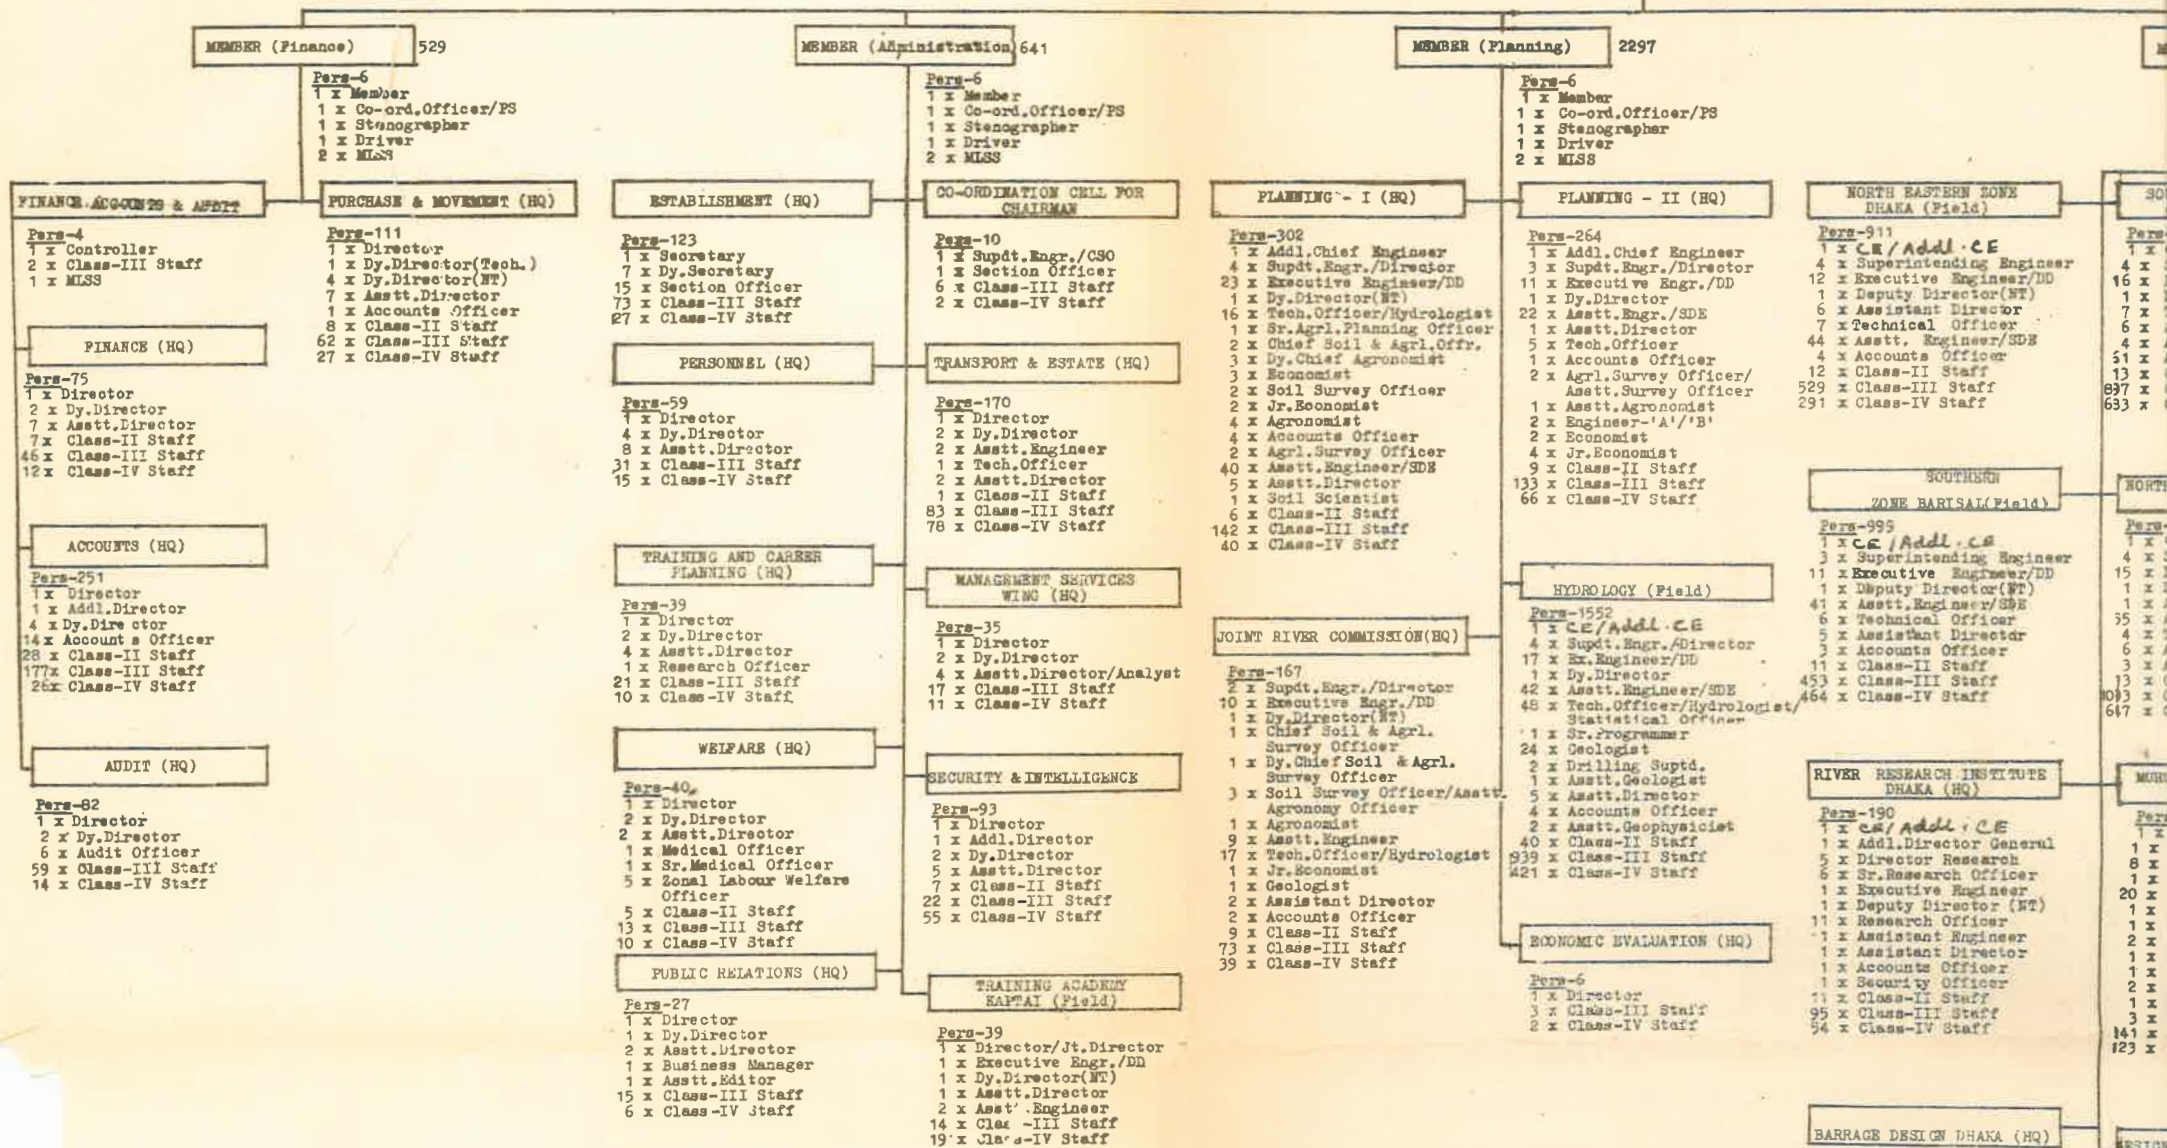

MINISTRY OF AGRICULTURE

FUNCTIONS:

- The Bangladesh Water Development Board has been entrusted with the responsibility for the overall development and utilisation of water resources in Bangladesh.
- The Board prepares scheme or schemes for the whole of Bangladesh or any part thereof providing for all or any of the following matters, namely -
 - construction of dams, barrages, reservoirs and other original works for irrigation, embankment and drainage channels for bulk water supply to communities and recreational use of water resources;
 - flood control including water-shed management;

- ALL BROKEN LINE**
- Existing personnel and assets of Directorate of Dredgers including workshop will continue to be borne on the strength of Bangladesh Water Development Board till Government decision is arrived at for their transfer to BIWTA.
 - Personnel and assets of land and water use is included in the total manpower but they will be excluded from total strength in the light of Notification No. 4/5/82/285 dated 24.7.83 published in the Bangladesh Gazette (Extra Ordinary) dated 24.7.83 after absorption in the Agriculture Extension Department. The personnel and assets will continue to be borne on the strength of Bangladesh Water Development Board till final disposal/absorption.

AUTHORISATION OF TRANSPORT, MAJOR OFFICE EQUIPMENT AND MISCELLANEOUS POINTS ETC.

- Transport:**
 - 113 x Car, b. 26 x Microbus, c. 3 x Bus, d. 235 x Cycle
 - 191 x LA/Picup, f. 78 x Station Wagon, g. 72 x Truck
 - 39 x Tractor, l. 369 x Motor Cycle & j. 467 x Cycle.
- Private use of transports will be as per Government Instructions issued from time to time.
- Office equipment:** The following office equipments may be retained by the Department:
 - 1246 x Type Writer Machine.
 - 163 x Duplicating Machine.
 - 67 x Plain Paper Copiers.
 - 127 x Blue Printing Machine.
 - 1 x Off-set Machine.
- Misc. Points:**
 - Embankment/Sluice/Store Khalsahi and Workshop/Store Labour shall be engaged on Master Roll basis as and when necessary from time to time to be determined by the Board.
 - The post of Director General of River Research Institute has been redesignated as Chief Engineer.
 - The post of Additional Director General of the River Research Institute shall continue till retirement of the present incumbent.
 - The surplus personnel will continue to be borne in the pay roll of BWDB till their final absorption.
 - Details of staffing pattern have been shown separately.
